GReddy OX-03 "High Capacity" Oil Filter | 3/4"-16 UNF (Nissan CA18, RB...)

Cena brutto	69,14 zł
Cena netto	56,21 zł
Numer katalogowy	13901103

Opis produktu

GReddy OX-03 Oil Filter
Thread size : 3/4"-16 UNF
Diameter : 65 mm
Height : 90 mm
Excellent filtration
Increases capacity by about 150 mL
Oil flow increasead by 30 % compared to OEM
Limits oil pressure dropping
Made in Japan
GReddy part no. : 13901103
GReddy OX-03 "High Capacity" | 3/4"-16 UNF Oil Filter Made in Japan by Trust, GReddy OX oil filters are designed for some of the most powerful Japanese vehicles, offering both excellent quality and performance. Thanks to their patent technology, these filters ensure one of the purest filtrations, and minimal oil pressure drop through the filter. Oil flow is also increased, ensuring better engine performance and cooling efficiency. Attention ! This larger filter increases oil capacity by about 150 mL, improving engine reliability for intense use. However you will need to verify if you have the space available in your engine bay (90 mm high).. GReddy recommend replacing the filter every 6 months or every 10.000 km, or more often for intense use. Give your Japanese sportscar the best ! Applications Non-exhaustive list : Nissan S13 CA18DET, without sandwich plate Nissan Skyline R32, R33, R34 (RB20/25/26), without sandwich plate
