GReddy Platinum Pro JIS-P08 Spark Plug

Cena brutto	112,04 zł
Cena netto	91,09 zł
Numer katalogowy	13000118-P08

Opis produktu

Japanese Performance and Reliability !Platinum spark plugs, made in Japan by GReddy & NGKTwo grades colder than standardCompatible with : see list belowIdeal for sporty and tuned Japanese engines, that have to withstand intensive use (trackdays, races, drifting)Thread length : 19 mmTotal length : 72 mm (exc. electrode)Thread : M14x1.25Socket size : 16GReddy part no. : 13000118Sold individually, adjust quantity in the shopping cartGReddy Pro JIS-P08 Spark Plug SpecificationsMade in Japan by GReddy, these cold spark plugs have been specifically designed to operate at higher temperatures, helping to disperse heat inside the cylinders. This improves combustion, overall performances and engine reliability, reducing the risk of knocking.Particularly adapted to sporty and tuned Japanese engines, that have to withstand intensive use (trackdays, races, drifting), these platinum spark plugs have a more powerful spark than their iridium equivalent, platinum being a better electrical conductor. They are fully compatible with the following engines :Toyota : 4A-GE, 4A-GZE (Corolla, MR-2...)Nissan : CA18DET (S13)RB20DE, RB20DET (Skyline R32, Laurel...)RB26DETT (Skyline R32, R33, R34 GT-R)Mazda : B6-ZE, BP-ZE (MX-5 NA & NB)As well as certain European models : Audi, BMW, Porsche, Renault, Volkswagen...
