Opis produktu

GReddy Universal Flange Universal aluminum flange 42 mm diameter Allows you to install your GReddy dump valve easily
GReddy Universal Dump Valve Flange Specifications This universal aluminum flange allows you to install your GReddy dump valve on your piping without any welding, with the help of a silicon T-piece for example. The valve fits directly onto the flange. The flange is compatible with all GReddy dump valves. It has a diameter of 42 mm.
