Opis produktu

This GT2i RACE open balaclava is very light and has an excellent price/performance ratio! This underwear is made of aramid, a material that guarantees comfort and flexibility of the product while having fireproof characteristics similar to those of Nomex. Very soft, pleasant to the touch, ultra light and breathable, this balaclava meets the drastic anti-fire standards of the FIA. During the manufacturing process, we opted for external seams so that the underwear, in direct contact with the skin, is always pleasant to wear. One size fits all Made in Europe. Approval: FIA 8856-2018 Material: 50% aramid, 50% viscose
