Numer katalogowy **HR-Q0069**

Opis produktu

This reinforced engine mount made of aluminum alloy. It works well for those who expect the vibration and track their cars. This will help reduce just about any engine movement and give you a solid response! . Offers a more direct connection between the Drive-train and Chassis . Helps to put power down to the wheels . Direct bolt-on with OEM components . 100 accurate and solid response! Note:2 PCS/SETSOLID ALUMINUM Fits: Honda Civic 5th 1992-1996 EG, EH, EJ1/2 Honda Civic 6th 1996-2000 EK3/4/5/9, EJ6/7/8/9, EM1 Honda Integra DC2 1994-2001
