Opis produktu

Hardrace caster adjusting kit is designed to add caster adjustability to your Civic & Integra with OE 2-piece type control arms. Simply by adding the washers between the two sections of LCA, you can achieve 0~2.5 degrees of caster gain without any other suspension modification, definitely a great way to improve steering response and straight line stability.. Offer caster adjustability to OE type control arms. Improve handling performance and stability. High strength class 10.9 hardware kit included Note:Caster Adjustment Range: +0°~2.5°* Civic EK '96-00: For USDM EJ6/7/8 Use Only32 PCS/SET Fits: Honda Civic 5th 1992-1996 EG, EH, EJ1/2 Honda Civic 6th 1996-2000 EK3/4/5/9, EJ6/7/8/9, EM1 Honda Integra DC2 1994-2001 Honda Integra DC2 Type R 1995-1998
