Opis produktu

Panhard rods control lateral movement of the axle housing. Once the car is lifted, the added height will throw off the alignment and shift the axle to one side. Adjustable panhard rods allow you to re-center the axles and keep the vehicle tracking straight down the road. Hardrace panhard rods are well-known for its high strength steel tube construction to withstand harshest off-road conditions. It also features harden rubber bushings for both great ride quality and handling performance, allowing you to tackle tough terrain.. Correct axle alignment on lifted cars. High quality ultra strong steel tube construction. ED coated and painted for the highest durability. Equipped with premium quality harden rubber bushings
