Opis produktu

Lifting suspension in Jimny will reduce caster angle of the front end and result in lack of steering feedback and bad directional stability. Hardrace caster correction bushing features high strength and anti-crack rubber material with offset design to restore factory alignment setting, ensure great handling performance after suspension lifts.. Correct caster angle on lifted cars. Harden rubber bushings equipped. Provides better handling performance Note:For Front Arm Front SideCaster Correction +3°/+6°Harden Rubber Equipped4 PCS/SET Fits:Suzuki Jimny 3rd 1998-2018 Suzuki Jimny 4th 2018-present
