Opis produktu

Hardrace is proud to announce the front strut brace for GR Yaris. The brace features aluminum alloy center bar for extreme lightweight and superior strength. By tying the strut towers together, the brace capably eliminate lateral body deflections and maintain proper suspension geometry under high speed driving and hard cornering, offering a more precise and connected handling response.. Lightweight aluminum construction. Improve chassis rigidity. Provide greater handling response Note:For LHD/RHD Use1 PCS/SET Fits:Toyota Yaris / vitz GR GXPA16/MXPA12, 2020-present
