### Opis produktu

HARDRACE is proud to announce the front upper arms for USDM Ranger. The control arms utilize built-in caster increase and ball joint angle change design to correct suspension geometry for lifted cars, allowing greater articulation and significantly improve off-road performance. They also feature high strength steel tubular construction with premium quality greasable CR-MO ball joints and harden rubber bushings to offer superior durability and serviceability along with solid driving response.. Correct suspension geometry for lifted cars. High strength steel tubular construction. Greasable CR-MO ball joint equipped . Harden rubber bushings equipped . Dramatically improve handling performance Note:For USDM UseHarden Rubber Equipped2 PCS/SET Fits:Ford Ranger 2012-2022
