Opis produktu

The camber kit allows fine adjustments to the front end camber setting of the vehicle. It can either help maximize wheel contact patch to improve cornering grip or get your car back to original alignment specs after lowering. The arms are made of high tensile steel alloys to offer greatest strength and durability. With premium quality hardened bushings and ball joints equipped, they also provide greater handling response over the factory components.. Offers camber adjustability to suit various driving conditions. High-strength steel alloy construction. Premium hardened bushings and ball joints equipped. Improve handling performance. OE direct fitment. ABS sensor wire brackets compatible Note:Harden Rubber Equipped2 PCS/SET Fits:Mazda MX-5 MIATA 2nd NB 1999-2005
