Opis produktu

The Hardrace lift control arm kit is the complete solution for 0~2" lift of JB64/JB74 Jimny. It consists of 4 radius arms and two panhard rods to correct caster, pinion angle and center axle housing, allowing greater axle movement and handling performance after suspension lifts. The dropped lower brace is provided as well to help prevent interference of propeller shaft. With ED coated high strength construction and harden rubber bushings, these arms provide superior strength and durability along with solid driving response.. Correct alignment settings on lifted cars. Harden rubber equipped control arms for better chassis response. High strength construction. ED coating and painting for highest durability Note:0-2" LIFT KIT - 7PCS/SETFOR LHD VEHICLES ONLY Fits:
