Hardrace Rc Tie Rod End For For Toyota Yaris

Cena brutto	921,27 zł
Cena netto	749,00 zł
Numer katalogowy	HR-Q0898

Opis produktu

Steering tie rod angle changes as the suspension is lowered/lifted. This will make the car difficult to control due to the unwanted toe change during suspension travel (Bump steer). Hardrace RC tie rod ends, by relocating the tie rod end ball joint pivot point, will help return the geometry back to original for proper steering response. The tie rod ends are manufactured from high quality pillow ball joint to provide a more direct and responsive steering feel and sustain extensive loads. Its adjustable design allows the rod height to be fine adjusted by spacers to accommodate different ride height settings.. Correct steering geometry on lifted & lowered cars. Provide more direct steering response. Premium quality pillow ball joint equipped. Adjustable design to suit different ride height settings. Direct bolt-on with OEM components Note:For Lifted & Lowered SuspensionPillow Ball Equipped2 PCS/SET Fits:Toyota Yaris / vitz GR GXPA16/MXPA12, 2020-present Toyota Corolla/altis/auris GR GZEA14 2022-present
