Numer katalogowy	HR-Q0867

Opis produktu

Hardrace is proud to announce the 4-link kit for JB64/74 Jimny. It converts the factory radius arm to separate upper and lower arm type suspension to improve articulation and also maintain a more constant angle of the axle as the suspension travels up and down, offering greater performance and capability both off-road and on-road. This kit features heavy-duty tubular adjustable control arms and with 5.0mm thick high strength steel alloy brackets, designed to suit various ride height settings and withstand the harshest off-road conditions. The equipped harden rubber and pillow ball bushings also provide better handling performance and pivoting angle over the OE bushings.. Increase suspension flex for better off-road capability . Improve on-road handling performance. Heavy duty arm + mounting bracket construction. ED coated and painted for highest durability. Direct bolt-on design, no drilling & welding required Note:Adjustable Harden Rubber + Pillow Ball 8 PCS/SET Fits:
