Opis produktu

Sway Bar affects the handling and the car's over steer and under steer. By adding sway bars to torsion beam, it ties the suspension together across the rear ends, keeping your car flat in turns instead of leaning over to one side and will provide better control especially at high speeds cornering. Designed for OE direct fitment. Correction of understeer. Improve more grip and better handling. Increase stability while during high speed cornering Note:15 mm3 PCS/SET Fits: Honda Fit / jazz 4th 2020-present
