Hardrace Rear Camber toe Adjusting Spacer Suzuki Swift

Cena brutto	1 023,45 zł
Cena netto	832,07 zł
Numer katalogowy	HR-Q0543

Opis produktu

The OE rear torsion beam of Swift does not allow for any alignment changes. HARDRACE rear adjusting spacer can help you to reduce the rear toe degree easily. By replacing the factory caliper mounting bracket and install the rear adjusting spacer, it will correct the toe-in to normal of lowered car.. Constructed of high-strength steel alloys. Improve stability . Smooth and accurate feel when breaking. Increase steering response . Less understeer Note:2 PCS/SETFOR SPORT 1.4T USETOE IN FROM 0.2° TO 0.1°/ADD NEGATIVE CAMBER BY 1° Fits:Suzuki Swift 4th ZCx3 2017-2024
