Opis produktu

Hardrace rear lower arm drop kit is designed for lowered Alphards and Vellfires. With the rear lower arm knuckle side mountings dropped by 50mm, the brackets will relocate lower coil spring seats to help lower ride height without compromising suspension stroke for great handing performance and ride quality.. Extend suspension travel on lowered cars. Eccentric bolts equipped for camber adjustment. High strength steel construction. ED coated for superior durability
Note:Lower Arm Dropped By 50mm2 PCS/SET Fits:Toyota Alphard / vellfire 3rd 2015-2023 Lexus LM 1st 2020-2023
