Opis produktu

Hardrace subframe anti-vibration insert is the best choice to improve traction and get a more connected suspension feedback. The insert features CNC aluminum construction for precise fitment to the factory subframe bushings. By filling the void in the bushings, the inserts capably limit unwanted movement and firming up the subframe, eliminating wheel hop, power loss and sloppy suspension feel under harsh driving conditions.. Anodized CNC aluminum construction. Precise fitment to the bushing voids. Eliminate unwanted subframe vibration & movement. Provide better traction & suspension response
