Opis produktu

Hardrace is proud to present the steering stabilizer relocation kit for Jeep JL/JTs. The steering stabilizer on JL/JTs is prone to damage in the original location. The relocation kit bolts on to the steering tie rod, moves the steering stabilizer above to help prevent such damages.. CNC formed high strength steel construction. Relocates the steering stabilizer to prevent off-road damages. Note:For #Q05632PCS/SET*Not for OE steering tie rod Fits:Jeep Gladiator JT 2019-present Jeep Wrangler JL 2018-present
