Opis produktu

We recommend [servicing](#) your valve every 3 years, or 20,000 miles, whichever comes sooner

Forge Motorsport has developed this high flow vacuum operated single piston valve for the Audi S1 2.0. Designed primarily to ensure that high volumes are discharged quickly to the atmosphere, whilst creating the sought after sound. Everything required for the installation is supplied along with comprehensive instructions. This can be used on either a stock or a mapped car.

Please note that red hose is available but it will be a special order. Please call us for more information.
