Dostępność	Na zamówienie
Numer katalogowy	379176612
Kod producenta	FMINDK27-BLA
Kod EAN	*5056721227603*

Opis produktu

Forge Motorsport have developed this open-cone performance intake system for the Honda Civic Type R (FK8) offering significantly increased induction noise, a very healthy increase in performance throughout the midrange and at the top end +13.6 Bhp and +30 Nm of torque on the test vehicle.

The intake features a CNC machined billet MAF housing and high quality 4 ply silicone hoses in either black or red colour options. The hoses have been constructed with a 'smooth bore' design to reduce turbulence within the intake hose and maximise air flow as shown below:

Recesses within the walls of the silicone hoses fit the shape of the machined tube.

The kit is supplied with:

- 1x Pipercross air-filter.
- 1x CNC Billet MAF housing.
- 2x Silicone hoses.
- 5x Hose clamps
- 1x Mounting bracket.
- All fixings required.
