Hydraulic Lifter and Rocker Retainer Kit Kelford Cams for Nissan SR20DE SR20DET

Cena brutto	1 849,99 zł
Cena netto	1 504,06 zł
Numer katalogowy	RR-SR20-HLA

Opis produktu

RR-SR20-HLA | SR20DET Hydraulic Lifter and Rocker Retainer Kit A known weak point of the SR20 valvetrain is rocker arms dislodging under high RPM, limiter cuts, or over-rev conditions. Denstoj Rocker Retainers are here to fix that. We've now adapted our proven retainer clip system to suit the legendary Nissan SR20DE and SR20DET platforms. These clips lock onto OEM rocker arms, paired with custom-machined HLAs (Hydraulic Lash Adjusters) that accept the clip. The result? Rockers stay put - giving you confidence on limiter, at the track, or during a misfire event. Includes 8x OEM-style hydraulic lash adjusters with our proven retainer groove 8x Drop-in rocker retainer clips that fit over the existing rocker arm Fitment: We recommend running guide shims on both sides of the rocker arm to reduce lateral movement. Important: Hydraulic lash adjusters (HLAs) must be checked for plunger movement before installation. If the plunger does not compress when squeezed firmly between your fingers, the lifter is likely pumped up with oil. To release the oil: Place the lifter in a soft-jawed vice or hold it securely in a rag. Use a small pick or paperclip to gently depress the internal check ball through the oil feed hole. While holding the check ball open, slowly compress the plunger using your fingers. You may see oil come out — this is normal. Repeat until the plunger can be easily compressed and springs back under light pressure. Make: Nissan Engine: SR20DE / SR20DET Silvia / 180SX Series (RWD): S13 Silvia - SR20DE / SR20DET RPS13 180SX - SR20DE / SR20DET S14 Silvia / 200SX - SR20DE / SR20DET S15 Silvia / 200SX - SR20DE / SR20DET Front-Wheel Drive SR20 N15 Pulsar SSS (Australia) - SR20DE P10 Primera (Japan, Europe) - SR20DE P11 Primera (Japan, Europe) - SR20DE U13 Bluebird (Japan, NZ) - SR20DET (Bluebird SSS ATTESA) B13 Sentra SE-R (US) - SR20DE B14 200SX SE-R (US) - SR20DE Nissan NX2000 (US) - SR20DE Nissan Avenir (some trims) - SR20DET Nissan Presea R11 - SR20DE (some trims) Not Compatible With: RNN14 Pulsar GTI-R - SR20DET solid lifter head Sunny GTI-R (Europe) - SR20DET solid lifter head
