## Hyundai Kona N Brake Lines

Cena brutto	<b>1 280,13 zł</b>
Cena netto	<b>1 280,13 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>379177307</b>

### Opis produktu

#### Fits:

- Hyundai Kona N 2022 - replaces GB16897
- 4 line set

#### Why should I change my brake lines to Braided Stainless Steel ones?

- Better brake pedal feel – firmer under pressure
- More efficient braking- the PTFE lined, Stainless steel brake lines will not expand under load unlike OEM rubber hoses
- Long Lasting- PVC outer and Stainless-Steel end fittings will outlast the standard Mild Steel and rubber lines many times
- Available in many outer colour options to compliment your vehicle
- Rigorously tested and approved to the FMVSS 106 certification standards

## Complimentary Products

Our [uprated valve](#) for the Hyundai i20N, Kona N, and the Veloster N Line has been **expertly manufactured** and designed in the UK, meaning we can provide the industry leading valve for your vehicle. Specifically designed for the Hyundai, this valve can be used either as a fully atmospheric (blow off) valve, or a recirculating valve!

---

This billet aluminium [oil cap](#) will replace your OEM one, leaving your engine bay with a premium and high quality aesthetic. This cap is available in a choice of body colour (black or polished) and a choice of cap top insert (black or polished). **This perfectly compliments your i230N!**

The [FMTIA10](#) is proven to benefit the engines performance. With one of the weak links on the i30N and intake system being the restrictive aluminium inlet pipe we found something more was needed on stage 1 and 2 tuned vehicles. **The results speak for themselves.**
