Dostępność	Na zamówienie
Numer katalogowy	379176339
Kod producenta	FMINDK18
Kod EAN	*5056721227542*

Opis produktu

- This product has been designed with only one belief...to deliver the **BEST PERFORMING PRODUCT** on the market with the **BEST QUALITY** parts available.
- The kit has been developed to replace the restrictive OEM airbox giving improved response, and increased induction sound by using a market leading Pipercross filter and Forge fabricated aluminium parts.
- Further performance gains can be achieved by running this induction kit along with a remap which enables the engine to take full advantage of the loss of restriction in the OEM airbox
- The intake is complemented by Forge Silicon hose .The construction of the 4 ply hose has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically.
- Developed in the UK at our Gloucester Research and Development facility.
- The intake kit comes supplied with all the items required for the installation.

Please note - the Pipercross filter is excluded from the Forge lifetime warranty

DO NOT OVER TIGHTEN

When fitting the filter to its counterpart please ensure you do not over tighten the hose clamp connecting them. Doing so could result in the part being crushed, leading to fitment and/or performance issues. The recommended torque setting for this hose clamp is 2-2.4Nm
