Induction Kit for the BMW Mini Cooper S Turbo

Cena brutto	1 761,60 zł
Cena netto	1 761,60 zł
Dostępność	Na zamówienie
Numer katalogowy	379174879

Opis produktu

Please be aware that this Induction Kit does not fit vehicles with a MAF sensor, if you are unsure on compatibility please contact us.

This Induction Kit for The BMW Mini Cooper S (R56 models, 2007 on models) replaces the original filter and air box to improve the breathing of your engine. Unlike many aftermarket induction kits, this kit maintains the intake of colder air from the front of the vehicle to ensure that performance gains achieved through using a free flowing filter are not lost by drawing in warmer air from the engine bay.

Users of this kit have reported back on the ease of installation as well as a sportier sound without being obtrusive.

Please note this only fits the earlier N14 engine (2007-2012) and not the later N18 engine.

Please watch [our video](#) on how to fit an air filter without damaging it.
