Opis produktu

An induction kit for the H type Astra VXR.

This kit replaces the original air box and not only streamlines the intake to good effect, but in combination with the free flowing Pipercross airfilter, unleashes an extra 11 bhp on a standard engine, with greater improvements on software tuned vehicles.

The kit included the highest quality european grade silicone hoses which are available in Red,Blue or Black. This also includes the breather hose and to top it off, we supply a breather filter.

Simply choose the colour of the hoses required in the options above.

To view the installation instructions click [here](#)

Please note - the Pipercross filter is excluded from the Forge lifetime warranty

Please watch [our video](#) on how to fit an air filter without damaging it.
