Opis produktu

- The filter is manufactured to Forge's specifications by [Pipercross](#)
- Washable and reusable design.
- Layered multi-density foam technology.
- Designed and manufactured in Great Britain.
- Improvement in engine power and torque with superior engine protection from dirt and dust ingress.
- Designed to flow stronger for longer.

The Forge intake for the 2015-onwards 1.2 & 1.4 TSI removes the restriction of the stock airbox and replaces it with a silicone hose (available in a choice of colours) and free flowing [Pipercross](#) cone filter, which offers superior filtration to the stock paper filter. You can find the replacement filter [here](#).

Compatible with the SEAT Ibiza 6P (2015-2017), Skoda Fabia 1.2 TSI, VW Polo 1.2 TSI, and 1.4 GT Blue - if you are unsure whether your vehicle is suitable, please [contact us](#)

The Forge silicone hose has a larger bore and smooth finish inside giving optimum flow and comes in a choice of 3 colours: black, red, or blue. Please select colour from the drop-down list above.

- The construction of this hose has been engineered to exceed that of the OEM fitments and will enhance any engine bay both technically and aesthetically
- Lifetime warranty*

The kit is supplied with everything you need, including [instructions](#) for installation.

[❏ Couldn't have chosen a better induction kit ❏](#)

[❏ Easy to put on. Would 100 percent recommend Forge to anyone ❏](#)

You can perfectly compliment this intake with our [dump valve](#) for the 1.2/1.4TSI, which totally replaces the plastic pipe from turbo to manifold with a silicon hose, as well as giving you the traditional dump valve sound, and a better looking engine bay!

We also offer a collection of [wheel spacers](#) in various sizes too. These CNC machined precision alloy wheel spacers are available in 3, 5, 8, 11, 13, 16, 20mm thickness and come with a 57.1mm bore and dual 5 stud bolt pattern for both 100 and 112mm PCD fitments. The spacers are anodised black to inhibit corrosion and "bonding" to the wheel or hub and are machined with an alloy spigot to allow centering on the hub.

Please note: This induction kit will not fit CZE engine with cam breather at the back of the engine

Please note: The [Pipercross](#) filter is excluded from the Forge lifetime warranty

DO NOT OVER TIGHTEN

When fitting the filter to its counterpart please ensure you do not
