Opis produktu

Induction Kit for VW Scirocco 1.4 Twincharged. This Induction Kit replaces the original filter and air box to improve the breathing of your engine. Unlike many aftermarket induction kits, this kit maintains the Intake of Colder Air to ensure that performance gains achieved through using a free flowing filter are not lost by drawing in warmer air from the engine bay.

Only available in Black. You can find a replacement filter for this kit [here](#).

Please watch [our video](#) on how to fit an air filter without damaging it.
