Opis produktu

The NX original nitrous rails feature a billet aluminum body anodized black. This package includes 4 single hole rails, fittings, and pipe plugs. The rails themselves also include 4 1/8" input fittings as well as 16 5/16 x 24 fittings. These rails would be spectacular for those looking for a clean look while also using less space than the traditional distribution blocks.

NOTE: The rails will require tapping for all fittings!
