Opis produktu

This hose replaces the OEM Renault pipe, part number: 16 57 542 63R

This reinforced silicone intake hose fits the Renault Megane RS 4 280 & 300. Due to its location it really improves the aesthetics of the engine compartment and removes the restrictions found inside the OEM plastic hard pipe.

Complete with hose clamps these are available in red, yellow, blue, or black. Please select your choice in the options above when ordering.

Please note that this hose is included in the alternative option with part [FMTIA4](#) (turbo inlet adaptor).

Highlights:

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.

-
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
 - Lifetime warranty*
