Intake Hose for the VW T6 TSI

Cena brutto	596,84 zł
Cena netto	596,84 zł
Dostępność	Na zamówienie
Numer katalogowy	379176954

Opis produktu

This reinforced silicone intake hose fits the 2 litre turbo VW T6 TSI. The van uses a derivative of the high performance "EA888" 2.0TSI engine found in the ever-popular Golf GTI. The hose is also compatible with other VW vehicles that have the OEM hose Number: **7EO129627B**

Due to its location it really improves the looks of the engine compartment and removes any restriction of the OEM plastic hard pipe.

These are available in red, blue, or black. Please select your choice in the options above when ordering.

This part is also compatible with intercooler option [FMINT13](#) and dump valve [FMDVMK7](#)

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*

The hose has an inner diameter of 57mm with a smooth taper to 80mm
