Intercooler Mishimoto Subaru WRX STI 2008+ srebrny + niebieskie silikon

Cena brutto	3 755,00 zł
Cena netto	3 052,85 zł
Cena poprzednia	3 804,26 zł
Dostępność	Na zamówienie
Numer katalogowy	331390067
Kod producenta	MMTMIC-STI-08SLBL

Opis produktu

Looking for a way to reduce high intake temperatures on your stock or modified STI? The solution is the Mishimoto direct-fit top-mount intercooler engineered specifically for the 2008-2015 Subaru WRX STI. Mishimoto engineers spent months designing and testing this new STI TMIC to ensure optimum performance on both the street and track. This STI intercooler utilizes durable cast aluminum end tanks TIG-welded to a highly efficient, dense bar-and-plate core. The Mishimoto intercooler has a 3.75" thick core and a total volume of 584 in³. Thanks to this volume and a very dense offset fin pitch, we are able to optimize heat transfer and support vehicles from stock up to 400 whp.

This STI intercooler endured rigorous testing, showing a 10 Δ °F temperature drop as well as a +5 whp and +7 wtq bolt-on power increase for our stock test vehicle. Installation of this top-mount intercooler is simple, requires no modification to the stock A/C line, and can be completed in under 30 minutes. Included with this top-mount intercooler are new Y-pipe gaskets, a new BPV gasket, a silicone PCV hose, and a silicone throttle-body coupler. These components negate the need to gather supplies for installation, and they ensure years of reliable service. This top-mount intercooler is available in a durable powder-coated finish of Stealth Black or Sleek Silver, and like all of our WRX performance parts it includes the Mishimoto Lifetime Warranty.

- Direct fit for the 2008-2015 Subaru WRX STI
- Cooler Size: 24.5" x 11.5" x 4.25" / Construction: Bar and Plate / Weight: 21 lbs.
- Proven +5 whp and +7 wtq bolt-on power increase for stock vehicle
- 584 in³ of volume produces optimal heat transfer for vehicles from stock to 400 whp
- Mishimoto Lifetime Warranty
