Opis produktu

CAN KEYBOARDS Ecumaster range of products also includes CAN-bus based keyboard (available with different key layouts). Designed to withstand the harshest conditions, completely immune to water, mud or fuel. Built in LEDs indicate button state (RGB colors) and additionally act as back-light for the keyboard. The behaviour of individual keys is fully configurable using EMU BLACK or PMU client software. The unique idea of a replacement system for individual inserts means it is easy to rearrange the keypad layout using the existing insert without affecting appearance. Moreover, custom inserts can be supplied. Plastic laser engraved inserts are not included in keyboards box. KEY FEATURES CAN bus compatible keyboard, 125kbps, 250kbps, 500kbps, and 1000kbps CAN bus speed supported, works with EMU BLACK (1 keyboard) and PMU devices (up to 2 keyboards), full customization possible, IP 67 rated
