Koc termoizolacyjny na turbo Mishimoto Toyota Supra 2020

Cena brutto	1 294,93 zł
Cena netto	1 052,79 zł
Dostępność	Na zamówienie
Numer katalogowy	331390745
Kod producenta	MMTB-SUP-20

Opis produktu

Help reduce the heat in your 2020+ Toyota GR Supra (3.0L) engine bay with this Mishimoto turbo blanket. One of the main drawbacks to a turbocharger is the massive amount of heat that it produces. That heat can severely affect intake air temperatures and rob your engine of power. Additionally, keeping the exhaust gases that spin your turbo hot makes for a more efficient, better spooling turbo. That's why it's so important to insulate the hot side of the turbocharger and keep the heat in. With Mishimoto's 2020+ Toyota GR Supra (3.0L) turbo blanket, the heat stays where it's supposed to be and out of your engine bay. Our turbo blankets are constructed with an outer layer of volcanic lava rock and titanium woven fabric. The inner layer traps heat with a high-silica fabric and stainless-steel mesh for maximum durability. This allows the interior layer to withstand over 2,300°F (1,260°C) while the outer layer protects against temperatures over 1,760°F (960°C). Mishimoto turbo blankets have no trouble keeping the heat from permeating throughout the engine bay. This Mishimoto turbo blanket is a direct fit for the stock turbocharger equipped on your 2020+ Toyota GR Supra (3.0L) and is backed by our Mishimoto Lifetime Warranty for a lifetime of protection against engine bay heat.

This Part Fits:

Year	Make	Model	Submodel
2020	BMW	Z4	sDrive30i
2020	Toyota	GR Supra	Base
2020	Toyota	GR Supra	Launch Edition
2020	Toyota	GR Supra	Premium
