Kolektor ssący dolotowy Wagner Tuning BMW B58 Toyota Supra GR MK5

Cena brutto	7 719,98 zł
Cena netto	6 276,41 zł
Numer katalogowy	WT-160001006

Opis produktu

Wagner Tuning Cast Aluminum Intake Manifold for BMW B58 & Toyota Supra GR MK5 (S58 Optimized) Maximum Racing Performance Maximize the performance of your BMW B58 engine or Toyota Supra GR MK5 with the advanced Wagner Tuning cast aluminum intake manifold. This high-quality component is the ideal solution for racing enthusiasts and tuning professionals who want to take their vehicles to the next level of performance and strive for uncompromising optimization. Product highlights & performance advantages: Multi-piece cast aluminum construction: The intake manifold consists of several precisely manufactured cast aluminum parts that ensure optimal air flow and maximum efficiency in the intake tract. Screw-on intake funnels: For the best possible flow conditions and a significant increase in performance, screw-on intake funnels are integrated, allowing for precise tuning. Includes additional port injection with fuel rail: To optimize fuel supply and ensure even injection, especially at high power levels, a fuel rail for additional port injection is already integrated. Silicone hose adapter for throttle valve: The included adapter ensures a perfect and tight connection to the throttle valve, which simplifies installation and ensures maximum system integrity. Optimized for racing conversions: This intake manifold is the perfect basis for individual racing projects and conversions. It delivers the performance and reliability required for the most demanding conditions on the racetrack. Important installation note: Please note that the original water-cooled intercooler is not used when installing this intake manifold. This product is not a plug-and-play component and requires professional installation and adjustment by an experienced specialist or a qualified workshop. Appropriate tuning of the engine electronics is also necessary. Wagner Tuning quality developed for superior performance: The cast aluminum intake manifold from Wagner Tuning offers you first-class quality and superior performance. Developed and tested for demanding racing, this product ensures a significant increase in the engine performance and efficiency of your B58 engine. Trust in the expertise and precision of Wagner Tuning and experience the ultimate performance optimization for your BMW or Toyota Supra GR MK5. Invest in the Wagner Tuning cast aluminum intake manifold and experience a new dimension of engine performance. Ideal for anyone who wants to get the most out of their vehicle and doesn't want to compromise on quality and racing performance!
