## Korek chłodnicy Mishimoto 1.3 Bar mały

Cena brutto	<b>121,00 zł</b>
Cena netto	<b>98,37 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331389873</b>
Kod producenta	<b>MMRC-13-SM</b>

### Opis produktu

Getting the most out of your performance parts comes down to the details. When faced with hard driving conditions, a vehicle's cooling system becomes highly pressurized. Stock caps are not equipped to handle higher pressure, causing fluid to leak out into the overflow reservoir. The Mishimoto High-Pressure 1.3 Bar Radiator Cap will keep coolant where it needs to be flowing within the system. This cap fits most import vehicles. Raises the boiling point of engine coolant to provide a safer and more efficient cooling system. Ergonomically designed for easy removal and installation. Installing a new cap can prevent overheating and cooling system failure. Pressure Tolerance: 1.3 Bar / Fits: 31-32mm Fill Necks / Note: Will not fit stock KTM radiators. Mishimoto Lifetime Warranty
