Opis produktu

The ZRP crankshaft for Fiat 1.4L Abarth / T-Jet / Grand Punto is manufactured from aerospace grade 4340 solid billet steel, and no compromises have been made to the quality of the material to ensure the best possible product. This crankshaft is designed carefully from our vast experience. It provides the best possible engine performance, and the production process consists of strict inspections to ensure they have the best quality and tight tolerances for perfect fitment.

The Fiat Abarth crankshaft is fully balanced to 1gr.cm /- 0.1 using state-of-the-art Sunnen machines, and a balance results report is included. Check the individual features for your application below.

Product Features and Design

- Solid profiled counterweights aimed for maximum durability and increased crankshaft momentum.
- Straight oil holes for better oiling of the rod journals.
