Opis produktu

The kit is ready for immediate use. It is equipped with the highest quality products and all the necessary care tools. Advantages: suitable for any skin color intended for new and used leather Set contains: 1000ml Leather Cleaner 1000ml Leather Conditioner brush sponge 5x microfiber Contents Leather Cleaner – a delicate cleaning agent for smooth leather with an atomizer. Effectively removes all types of stains and dirt from the skin surface and eliminates unpleasant odors (e.g. cigarette smoke, human sweat). Leather Expert Cleaner creates abundant and stable foam, contributing to excellent cleaning results. The product is environmentally safe , ecological, biodegradable and not tested on animals. Apply the product to the leather using the original Leather Expert leather cleaning brush included in the set and wait about 30 seconds for the dirt to dissolve. Then wash it all off with a microfiber cloth. Leather Expert Conditioner – conditioner based on natural oils and waxes for new and used leather. Effectively nourishes the skin, contributing to fantastic results during care. It brings out the depth of color, leaving a satin finish. Leather Expert Conditioner has a pleasant scent of new natural leather. Apply Leather Conditioner using the sponge included in the set, using circular movements. Leave to absorb for 5 minutes and then polish with a microfiber cloth. Repeat the operation if necessary. Maintain the leather at least 4 times a year. Do not use on suede and nubuck.
