Opis produktu

Add some extra cooling power to your 2018+ Mustang GT with the Mishimoto Oil Cooler Kit. In 2018, Ford evolved their staple muscle car with a fresh and even more futuristic look on the S550. As the Mustang evolved, we evolved along with it to provide optimal cooling for your modern Mustang. Our engineers started with designing a heat exchanger from the ground up, to provide the largest oil cooler we have to offer and mounted directly to the front of the vehicle for optimal airflow. From there, we also developed an application specific mounting bracket that also serves as a diversion panel to further improve the airflow through the cooler. Our kit also includes a set of direct fit stainless-steel braided lines for a secure conduit to and from the cooler completed with -10AN fittings for a simplified installation. Finally, the Mishimoto 2018+ Ford Mustang GT Oil Cooler Kit includes our trusted thermostatic oil sandwich plate to protect against the overcooling of your engine oil. Our kit is available with the option of a silver or black cooler, and is protected under the Mishimoto Lifetime Warranty for a worry-free installation. The Mishimoto engineers designed the heat exchanger for this project from scratch to create the largest oil cooler that we offer, and mounted it in the front of the vehicle where it receives the most airflow. Application-specific braided stainless steel lines transfer the oil from the cooler to the engine and feature -10AN fittings for an easy installation. This 2015 Mustang GT oil cooler kit is available with either a Sleek Silver or Stealth Black cooler and the Mishimoto Thermostatic Oil Sandwich Plate. As with all our 2015 Mustang parts, the Mishimoto Mustang GT Oil Cooler Kit includes the Mishimoto Lifetime Warranty.
