Mishimoto Ford Fiesta ST Intercooler 2014-2019 Black

Dostępność	Na zamówienie
Numer katalogowy	331389118
Kod producenta	MMINT-FIST-14BK

Opis produktu

Many prototypes entered, but only one came out on top. The engineers went through multiple different designs for this Fiesta ST intercooler, weighing the benefits and downfalls of each. The final design consists of a tube-and-fin style intercooler in order to allow airflow to the radiator and reduce overall weight. The core size is 51% larger than stock, and also provides a 25% increase in internal core volume. During testing, this Fiesta ST intercooler dropped intake temperatures by a huge 26°F! This kit is designed to be a direct fit, and fits with the stock or Mishimoto [Fiesta ST Intercooler Pipes](#). Combine the two, and you'll have a complete high-performance charged air system. This Fiesta ST intercooler kit includes air diversion plates to channel air through the cooler for maximum efficiency. The all-aluminum, TIG-welded construction is of the highest quality, and like all Mishimoto Fiesta ST parts, it is backed by the Mishimoto Lifetime Warranty!

- 26°F reduction in AIT / 51% increase in core size / 25% increase in internal core volume / 226% increase in external fin surface area
- Tube-and-fin construction for added weight reduction over bar-and-plate cores
- Includes air diversion plates to direct air through the intercooler
- Core Size: 28.8" x 4.92" x 2.56" / Weight: 13.4 lbs / Inlet & Outlet Size: 2.55"
- Mishimoto Lifetime Warranty
