Opis produktu

Looking for a way to improve spool-up, increase power potential, and improve engine bay aesthetics on your EcoBoost Mustang? Mishimoto has you covered with a new hot-side intercooler pipe designed specifically for the 2015+ Ford Mustang EcoBoost. This EcoBoost Mustang kit features 2.5" mandrel-bent aluminum piping for smooth airflow, and four-layer silicone couplers with heat-resistant embedded fibers for improved tolerance against heat and pressure. This 2015 Mustang kit also includes high-quality stainless steel T-bolt clamps for consistent and reliable holding power. Installation on your 2015 Mustang is simple, requires no modification to any parts in the engine bay, and can be completed in under 30 minutes. The precision CNC-machined BPV flange allows you to retain the stock EcoBoost Mustang BPV. The Mishimoto Mustang EcoBoost Hot-Side Intercooler Pipe Kit is available in either polished or wrinkle black finish and like our entire line of Mustang parts, includes the Mishimoto Lifetime Warranty.

- Direct fit for the 2015+ Ford Mustang EcoBoost
- Pipe Construction: Mandrel-Bent Aluminum Pipe Diameter: 2.5"
- CNC-machined BPV flange allows for quick install of stock or stock-style BPVs
- Replaces weak stock hot-side plastic intercooler pipe
- Mishimoto Lifetime Warranty
