Mishimoto Honda Civic 1.5T Intercooler 2016-2021 Black

Cena brutto	3 501,00 zł
Cena netto	2 846,34 zł
Dostępność	Na zamówienie
Numer katalogowy	331389079
Kod producenta	MMINT-CIV-16BK

Opis produktu

Keep the charged air temperatures down in your turbocharged Civic with the 2016+ Honda Civic Performance Intercooler from Mishimoto! In the age of the turbocharger, Honda has finally joined the ranks of forced induction by equipping their tenth generation of the Civic with the L15B7. Where the Earth Dreams technology might be advanced, it still suffers from an age-old enemy -- heat. The stock intercooler utilizes a tube-and-fin construction coupled with plastic end tanks, giving high temperatures a perfect breeding ground. Our intercooler is designed with the Honda enthusiast in mind and eliminates high charged air temperatures that set up shop in the stock intercooler. The all-aluminum, bar-and-plate construction is specifically designed to shrug off heat generated by compressing air into the intake manifold. Our intercooler also has increased the volume by 102% and fin surface area by 97%, which helps drop outlet air temperatures by 20 F over the stock intercooler, and up to 42 F once a performance tune is added. The benefits of our upgraded design don't stop with the temperature drop. Our direct-fit intercooler adds up to 4 hp and 8 ft-lbs of torque when combined with the 2016+ Honda Civic Performance Intercooler Piping, with the potential to boost that power gain to 11 hp and 9 ft-lbs of torque with a tune. The Mishimoto 2016+ Honda Civic Performance Intercooler is available in Silver or Black and includes the Mishimoto Lifetime Warranty.
