Mishimoto Hyundai Genesis Coupe 2.0T Intercooler 2010-2012 Black

Cena brutto	3 094,00 zł
Cena netto	2 515,45 zł
Dostępność	Na zamówienie
Numer katalogowy	331389152
Kod producenta	MMINT-GEN4-10BK

Opis produktu

OEM intercooler setups are not designed to handle the higher levels of boost that come with modifying your turbocharged vehicle. The Mishimoto intercooler and piping kit is designed as an ideal upgrade for the 2.0L Turbo 2010-2012 Hyundai Genesis Coupe intercooler. The intercooler and piping kit reduces intake temperatures and increases overall cooling efficiency, resulting in a safe increase in horsepower. Unlike most other aftermarket intercooler kits available, modifications to the front bumper and removal of the crash bar are not necessary, since our kit retains the OEM fitment of these parts. Included in this comprehensive kit is a polished aluminum or black bar and plate style Z Line intercooler, a complete set of aluminum charge piping, along with all t-bolt clamps and silicone couplers needed for direct bolt-on installation. The Mishimoto Hyundai Genesis Coupe intercooler and piping kit will fit with the OEM radiator, as well as the Mishimoto Hyundai Genesis Aluminum Radiator. Note: For your taste, only one side of the intercooler has the Mishimoto logo. Worried that paint reduces performance? Check out our Painted Intercooler Engineering Report to learn how we debunked that myth! Direct fit for 2010-2012 Hyundai Genesis Coupe 2.0T. No modifications to the front bumper or removal of the crash bar are necessary. Smooth cast end tanks allow maximum airflow in and out of the intercooler. Mandrel-bent aluminum pipes eliminate restrictive bends in the stock piping. Mishimoto Lifetime Warranty.
