### Opis produktu

Improve airflow and turbo spool with Mishimoto mandrel bent aluminum intercooler pipes for the Mitsubishi Lancer Evolution 7/8/9. These pipe kits are designed with high-horsepower vehicles in mind and feature bead-rolled pipe ends for prevention of leaks and coupler disconnection. This Mishimoto Evo Intercooler Pipe Kit features silicone couplers that provide increased heat and pressure tolerance compared to the stock rubber counterparts. Whether you have a daily driven Evolution or a stripped and caged time attack car, airflow efficiency is key to optimizing your charge air system. These Mishimoto Evo intercooler pipes are available for purchase separately or as a kit. As with all our products, this kit is guaranteed by the Mishimoto Lifetime Warranty. Direct fit for the Mitsubishi Lancer Evolution 7/8/9. UPPER PIPES: I.D.- 2.375", O.D.- 2.50" LOWER PIPE: I.D.- 2.375", O.D.- 2.50". Lightweight, mandrel bent, polished aluminum pipes. Improves turbocharger spool and provides support for high-horsepower vehicles. Mishimoto Lifetime Warranty.
