Kod producenta	<b>MMOCA-GTO</b>

### Opis produktu

This LS1/LS2 front-sump oil cooler adapter allows you to get creative with your build. It is designed to give you a starting point when designing your own custom oil cooler setup. The adapter and fittings are CNC-machined from 6061 aluminum for superior fitment and durability. The adapter features two 1/8" NPT ports to allow for extra sensors or oil feeds, just in case you're thinking of adding a big ole' turbocharger in the future. Let this kit be the end of high oil temperatures in your LS engine.

- Designed for LS1/LS2 equipped vehicles with a front-sump
- Allows for use of -10AN fittings for custom oil cooler installation
- Two 1/8" NPT ports (with plugs) for sensors/oil feed/etc.
- Includes one straight and one banjo fitting for -10AN oil lines
- Mishimoto Lifetime Warranty
