Mishimoto Subaru WRX STI Intercooler Kit w/ Air Intake 2015+ Gold

Dostępność	Na zamówienie
Numer katalogowy	331389206
Kod producenta	MMINT-STI-15AIG

Opis produktu

Here at Mishimoto, we've decided to expand our line of 2015 STI products. Designed for applications that demand the greatest airflow and cooling capabilities, the Mishimoto 2015 STI Front-Mount Intercooler Kit will provide your 2015 WRX STI with the ability to make the most horsepower and torque possible. This 2015 STI intercooler kit was designed with the same 28" intercooler as our 2015 WRX front-mount intercooler kit. The massive 3.5" thick core will support up to 600 whp or 30 PSI of boost pressure! Smooth cast end tanks make for uninterrupted airflow through the cooler. This results in an intercooler that provides the best airflow and cooling capabilities without excessive pressure drops. Your fully built rally car will have no problem keeping a dense, cold, intake charge with this highly engineered STI intercooler kit.

The Mishimoto 2015 STI front-mount intercooler kit features mandrel-bent aluminum piping for optimum airflow. The STI front-mount intercooler pipe routing maintains your factory fog lights, so you can see on those dark, foggy rally stages. Everything you need is included in the STI front-mount intercooler kit to make for a worry-free installation. No cutting of the front bumper or other modifications are required with the application-specific crash bar that positions the intercooler perfectly in the lower grill of the front bumper where it will receive optimal airflow.

The 2015 STI intercooler kit includes two different turbo outlet hoses, just in case you have an upgraded turbo with a larger compressor outlet. And who doesn't want an upgraded turbo? Did I hear a blow-off valve on your car? The STI front-mount kit has that covered too. The piping works with the stock bypass valve or aftermarket blow-off valves! This 2015 STI intercooler is backed by the Mishimoto Lifetime Warranty to ensure superior craftsmanship!

- Direct fit for the 2015+ Subaru STI
- Overall Size: 37.7" x 8.6" x 5.4" / Core Size: 28" x 8.05" x 3.5"
- Cooler Construction: Bar and Plate / Pipe Construction: Mandrel-Bent Aluminum
- No modification to front bumper and retains stock fog lights
- Mishimoto Lifetime Warranty
