Opis produktu

Mishimoto proudly announces the all-new direct-fit oil cooler kit specifically designed for the Subaru BRZ and Scion FR-S. This direct-fit kit positions a large cooler in the front bumper for ample airflow and optimal cooling – perfect for your street or track BRZ/FR-S. Properly regulated oil temperatures ensure improved durability and longevity for your stock or modified 2.0L. This kit features all components for seamless bolt-on fitment, including application-specific mounting brackets, stainless steel braided oil lines, a Mishimoto billet aluminum oil sandwich plate, and CNC-machined aluminum spacers for the oil sandwich plate. This oil cooler kit substantially decreases oil temperatures, making it ideal for a hot day at the track or a spirited drive in the mountains. This oil cooler kit is available with our standard Oil Sandwich Plate or Oil Sandwich Plate with Rear-Mounted Thermostat for additional oil temperature control. It is also a perfect complement to the Mishimoto Subaru BRZ / Scion FR-S Performance Aluminum Radiator and the Mishimoto Silicone Radiator Hose Kit for the ultimate cooling solution for your vehicle. The Mishimoto Subaru BRZ / Scion FR-S Direct-Fit Oil Cooler Kit is offered with your choice of Stealth Black or Sleek Silver coolers and includes the Mishimoto Lifetime Warranty. Direct fit for the 2013+ Scion FR-S and Subaru BRZ. Application-specific mounting brackets. 19-row stacked-plate oil cooler for optimal fluid temperature reduction. Billet aluminum oil sandwich plate in standard or thermostatic form. Mishimoto Lifetime Warranty.
