Kod producenta	MMCLAMP-WGP-75

Opis produktu

Key Features

- Securely clamps hoses, couplers, and pipes with an outer diameter from 2.28-in-2.95-in (58mm-75mm)
- High torque worm gear design allows for quick and easy tightening
- Protective inner shield ensures safe, damage free clamping of soft materials
- Innovative double-ridge design provides uniform 360 clamping force
- Double-ridge inner shield design provides concentrated compression force to ensure leak free connections
- 304 Stainless Steel construction resists corrosion
- Sold in packs of 2
- Includes Mishimoto Lifetime Warranty

Mishimoto Sure Grip™ High Torque Protective Worm Gear Clamps are, simply put, the crème de la crème of hose clamps. Their innovative double-ridge inner shield design both protects the clamped material from cuts and abrasions while also providing superior clamping engagement. The double-ridge design provides concentrated compression force to provide equal 360° clamping pressure and leak free connections. To create a long-lasting, rust and corrosion resistant clamp, we utilized a 304 Stainless Steel construction. Available in a wide array of sizes ranging from 2.28" - 2.95" (58mm - 75mm) to fit everything from vacuum lines to intake tubes. Like all Mishimoto products, this Sure Grip™ High Torque Protective Worm Gear Clamp is backed by our Mishimoto Lifetime Warranty.

Clamp Style	Protective Worm Gear
Recommended Tightening Torque	35 in-lbs (4 NM)
Band Width (in)	0.5
