Opis produktu

"If you demand the absolute most from your cooling system, look no further than the Mishimoto Race-Ready Performance Aluminum Radiator. This race-ready radiator is perfect for your custom build. Its 1.26"-thick dual-pass core ensures effective cooling, while the strutted tubes can withstand more than 100 psi and resist flexing over rough terrain or hard cornering. Designed with adaptability in mind, this radiator features 1-5/8"-12 female threaded inlets and outlets for use with our billet aluminum interchangeable -16AN, -20AN, 1.25", and 1.5" fittings. This radiator is constructed from aircraft-quality TIG-welded aluminum, and like all Mishimoto radiators, comes backed by our signature Mishimoto Lifetime Warranty."
