## Mitsubishi Evo Closed Loop Dump Valve

Cena brutto	<b>989,95 zł</b>
Cena netto	<b>989,95 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>379174540</b>

### Opis produktu

**We recommend [servicing](#) your valve every 3 years, or 20,000 miles, whichever comes sooner**

Made from billet aluminium, this recirculating diverter valve dumps the charge-air back into the air intake system keeping external noise to a minimum. This increases both quicker throttle response and higher clamping load to maintain boost pressure more reliably. Unlike the diaphragms valves which are prone to failure, this uses a single piston single spring. This prevents our diverter valves suffering any of the failures associated with diaphragm type diverter valves.

**In The Box:**  
**1 x FMDVEVO15 Valve**  
**1 x Forge Sticker**

If you wish to tune this product to fit the needs of your engine, please see the spring tuning kit below.
